- *Market regulations*
 - *The Trespass Act*
 - *The Criminal Act*
 - *Municipal Police Act*
 - *Rules of Administrative Procedure*
 - *and others*
- **The town surveillance system**
 - **The assistance of citizens and their information**
 - **Web presentation**

Tool and means

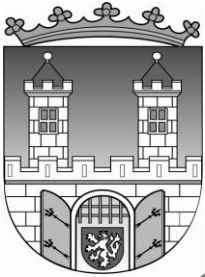

- **Auxiliary means of a tactic nature**
 - *Summons of prostitutes to a police station*
 - *Summons of prostitutes to the trespass committee*
 - *Summons of prostitutes to the municipal police*
 - *Making visual as well as audio recordings*
 - *Leaving the police car in the given location*
 - *Conducting repeated, stringent and thorough checks*

Summary

The above described tools are used mainly on two levels which are performed concurrently, or in an alternating way, in order to achieve maximal efficiency and success:

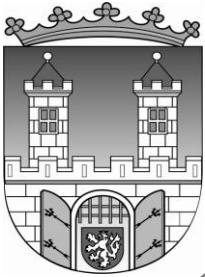

Summary

The above described tools are used mainly on two levels which are performed concurrently, or in an alternating way, in order to achieve maximal efficiency and success:

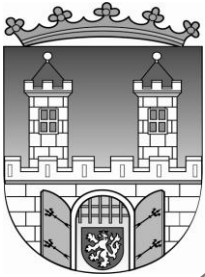

- **focus on prostitutes**

Summary

The above described tools are used mainly on two levels which are performed concurrently, or in an alternating way, in order to achieve maximal efficiency and success:

- **focus on prostitutes**
- **focus on the clients**

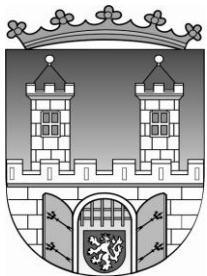

Summary

The above described tools are used mainly on two levels which are performed concurrently, or in an alternating way, in order to achieve maximal efficiency and success:

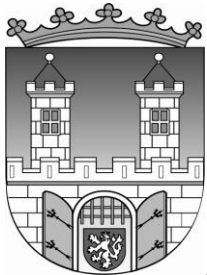

- **focus on prostitutes**
- **focus on the clients**

! Cooperation with the municipal police and the state police = multiplication of the efficiency and effect !

Conclusion

Conducting preventive activities and taking other measures to fight street prostitution brings desired results. Street prostitution, or more specifically its outer manifestation such as direct offer of sexual services in Chomutov territory, has dropped by nearly **80 % in recent months.**

Thank you for your attention
